TO EXECUTIVE COMMITTEE OF COUNCIL
FROM REGISTRAR
RE POLICY ON FUNDED OPERATIONS ON CAMPUS

1. Following the rapid growth in the number of centres, institutes and projects funded from outside sources a working group was set up to formulate a policy on "funded operations" on campus.
2. A draft document was put to representatives of the various projects on campus and the document has been amended several times, in line with suggestions from the project representatives as well as from the working group itself.
3. Although no firm agreement with the projects has been reached a final policy document has resulted from what the working group considers as "sufficient consensus". It has the support of the University Executive.
4. The purpose of the policy is to facilitate the relationship between the university administration and projects located at the university. It covers the aims and objectives of projects, their needs, reporting mechanisms and requirements, financial and related assistance, appointments' procedures and various other matters.
5. The implementation of the policy is facilitated by the entering into of a general service agreement with each project. A separate schedule details deviation from the general service agreement.
